

Photo Identification Badges

Protection Plus Security Services, Inc. (PPSS) is proud to announce our newest service offering; Photo ID Badges. Allow us to design a professional looking ID Badge that will enhance your image and allow for positive employee identification.

We will design a badge you can be proud of! In the initial design stage we will work with you to create and refine the identification badge that best represents your company image. We will take the digital photos and produce a product you can be proud of - guaranteed.

All badges come equipped with a metal badge clip or if you prefer we can provide you with break away lanyards or retractable badge clips. We can produce both adhesive and standard PVC badges. The adhesive PVC cards are ideal for attaching to your proximity access control card. You get all the benefits of an ID Badging System without the equipment expense, maintenance or training. Please contact us with any questions.
